

SAFE, ETHICAL SUPPLY CHAINS

In many cases, suppliers account for 80% of an organisations' supply chain spend and risk.

The rising focus on sustainability drives the need for businesses to achieve the highest standards in health and safety, quality, ethical best practices and responsible growth. More than ever, clients are facing increasing challenges in how they manage risks and transparency in their supply chain and to minimise the impact of vulnerabilities and disruptions.

SAFE, ETHICAL SUPPLY CHAINS

Alcumus Supply Chain Compliance offers a robust, streamlined, consistent and effective supplier and contractor on-boarding and management solution, that demonstrates compliance to regulatory requirements, international standards and industry best practice in the supply chain.

This provides full visibility of suppliers and contractors, delivering data-driven insights to enable better business decisions and peace of mind that your supply chain will not let you down.

Alcumus Supply Chain Compliance connects verified suppliers and contractors to leading organisations in a two-way commitment to ethical best practice and sustainable business growth.

Alcumus Supply Chain Compliance verifies the compliance of your supply chain, verifying that suppliers have the required ESG policies in place and accrediting contractors to a UK leading SSIP accreditation standard. We deliver tailored assessments through the UK's largest in-house technical team to verify the compliance of your suppliers and contractors annually.

Clients manage their suppliers and contractors through our technology platform which provides visibility into their supply chain, allowing them to make informed decisions about the suppliers and contractors they use. This ultimately provides both peace of mind, and cost efficiencies through a reduced admin burden.
