

Innovation at the right price

User information sheet CS 2020 / CS 2060 Series

I) Principle use

Slide the slider to deploy the blade.

During the cut ensure the slider is released (the blade is kept deployed by friction of the material being cut).

Thus when exiting the material (as the slider is not held out) the blade automatically retracts safely.

User information sheet CS 2020 / CS 2060 Series

II) Changing of blade

These safety knives are ambidextrous :

The knives can be used by right & left-handed users
(Invert the blade for left hand use)

1  Press the two tabs on the rear end cap to release the cap	2  Pull the slider block to the rear	3  Complexly withdraw the mono block slider, remove and discard safely the used blade
4  Locate the new blade by placing on the magnets with centre hole engaged (invert blade to change from right to left hand)	5  Replace the mono block slider	6  'Click' the end cap into place - the knife is ready to use !

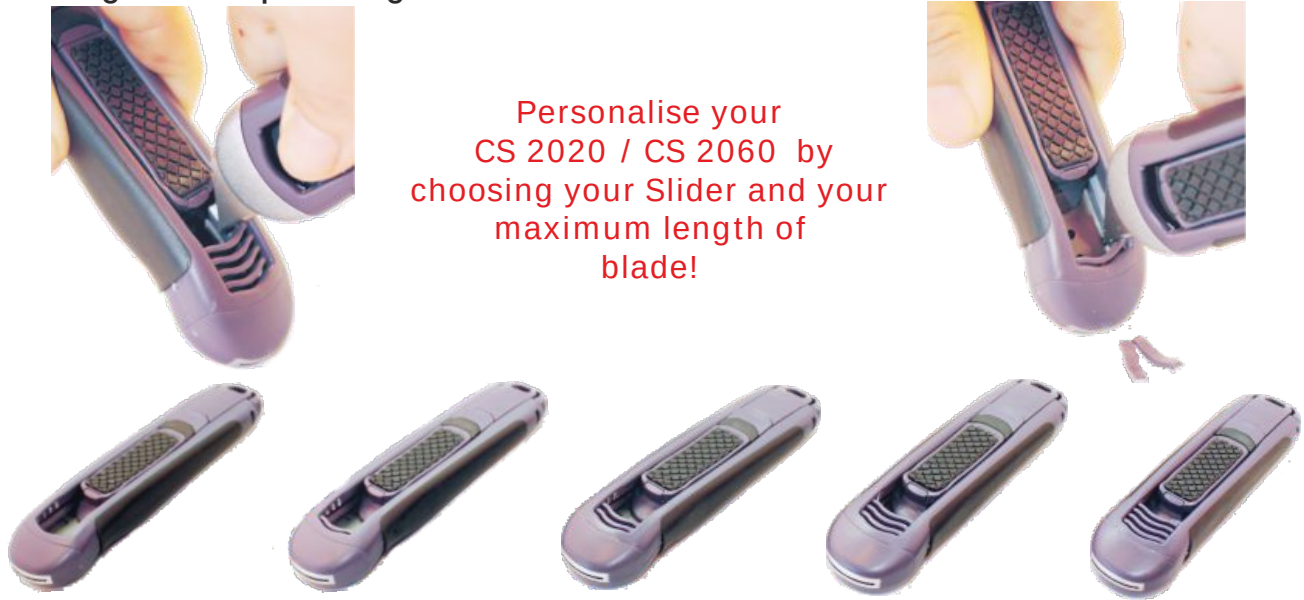

III) Main applications

 ★★★★ Corrugated packaging	 ★★★★ Cardboard single ply up to 4 mm thick	 ★★★★ Cardboard double ply up to 8 mm thick	 ★★★ Cardboard triple ply up to 12 / 15 mm thick
 ★ Straps, plastic foils, composites, textiles.	 ★★ Plain card up to 2mm thick	 ★ Stretch film thickness up to 30µm.

IV) Setting the output length of blade

CS 2020

Stop without ribs
maximum blade length
= 13 mm

Stop with 1 rib
maximum blade length
= 11 mm

Stop with 2 ribs
maximum blade length
= 9.5 mm

Stop with 3 ribs
maximum blade length
= 8 mm

Stop with all 4 ribs
maximum blade length
= 5 mm

CS 2060

Stop without ribs
maximum blade length
= 24 mm

Stop with 1 rib
maximum blade length
= 22 mm

Stop with 2 ribs
maximum blade length
= 20 mm

Stop with 3 ribs
maximum blade length
= 17 mm

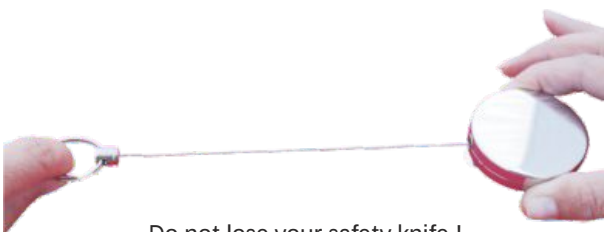

Stop with all 4 ribs
maximum blade length
= 14 mm
